

Pharmaceutical Intelligence Analyst

About LCN Consulting Inc.

LCN Consulting is a business intelligence consulting firm serving the pharmaceutical and healthcare community for over 15 years. Our firm provides critical business research for strategic decision makers across a range of pharmaceutical companies

Basic Function

The candidate will work in supporting existing client projects. This will require the candidate to collect the information required via multiple mechanisms including open portal, conducting primary interviews and other sources as required

Primary Responsibilities

The Pharmaceutical Intelligence Analyst is integral in conducting all interviews and collection of data required for successful completion of client projects.

- Conduct primary interviews with sources to gather information supplementing intelligence gathered via public sources
- Collect secondary data available in the public domain
- Analyze and interpret collected research
- Compile and concisely communicate data findings
- Write reports and present to client
- Conduct multiple research assignments based on project load
- Work independently and in a team
- Attend and report on medical conferences

Skills

- Working basic knowledge of healthcare delivery systems
- Ability to conduct interviews with sources via multiple mechanisms; virtual, in person, phone
- Working core acumen of Microsoft suite of business products such as PowerPoint, Word
- Ability to work in a team and independently to understand team strategies and then organize tactics for implementation
- Strong oral communication & presentation
- Strong written communication
- Organization, planning and project management

Position would be based in LCN office located in West Caldwell NJ and candidate would be required to be on site
